Thiru. J. RAJENDRA PRASAD
Correspondent & Secretary - Mysya College
Chairman - JIPMMA Educational Institutions

Chairman's Message

With the blessings of the Almighty and of all well wishers,
I try to make this company **SHRINE** with a **MISSION**.

Thiru. J. Rajendra Prasad, a man of success with incisive thoughts is the founder chairman of JIPMMA Public School Salem. He is renowned for thinking ahead of time and for his progressive plans that are unique and valuable. He is well known for his effective management and spirit of economic excellence in education and has dedicated himself completely for promoting quality education and to spread knowledge and discipline amongst the youth.

He is a leading educationalist and philanthropist and he serves as the Correspondent and Secretary of Mysya College established in the year 1990 which is affiliated to Poyyer University, Salem. This is the first college to be accredited with Prestigious "A" grade Status by National Assessment and Accreditation Committee (NAAC), Bangalore.

With this valuable experience and in fond remembrance of his father Thiru. J. Ramiah Chetty he constructed the ITech Institution, **JIPMMA COLLEGE** in the year 2001.

This multi-faceted personality with his 25 years of experience in the field of higher education has stepped into another milestone **JIPMMA PUBLIC SCHOOL for Kids**. A School with all (H) Tech facilities, safe, secure & comfortable infrastructure with modern teaching methodologies. It ensures the child's intellectual, emotional, physical and spiritual development and aims to produce successful, responsible, creative, global citizens with the best moral values.

Principal's Message

"Education is a shared commitment involving dedicated teachers, motivated students and enthusiastic parents with high expectations."

With the Jāram Public School aims to create a sufficient and inclusive environment where gifted and talented students are encouraged to explore their potential and achieve their personal best in all aspects of school life.

We are sincerely committed to educate and bring up an emerging generation who possess a global perspective and will be positive contributors to the community as a whole.

Jāram Public School is a wonderful place for Pupils from diverse backgrounds to grow educationally, get involved, and have a great school experience.

Students will be challenged and engaged through authentic Learning opportunities that inspire them to enhance creativity, confidence and resilience to become independent and ethical life-long learners.

Our school offers a broad curriculum and a range of opportunities for all our students to achieve excellence in academics, creative, social, cultural, sporting and community endeavours. We value collaborative learning, positive relationships and building capacity amongst our students to effectively allow them to engage in the world of the future, where problem solving, evaluating, working in teams, communicating, creating and innovating are not only valued concepts, but expected skills, attributes and capabilities.

All of this is made possible by strong partnerships that are developed especially with our parents who whole heartedly support us in all our endeavours for the holistic enhancement of the child at school.

As part of the CBSE affiliated school, we have a distinctive advantages of methods made available to us.

So come on in! Take a look at what advantages your child will have being in a well reputed school like ours.

the Future is here.

Dear Visitor,

We are pleased to have you visiting our school. We are committed to providing quality education and a safe environment for all our students. We hope you will find our school a wonderful place to visit.

Dear Assistant,

We are pleased to have you visiting our school. We are committed to providing quality education and a safe environment for all our students. We hope you will find our school a wonderful place to visit.

Objective

The objective of this project is to provide a safe and secure environment for all our students. We are committed to providing quality education and a safe environment for all our students. We hope you will find our school a wonderful place to visit.

Welcome to the Second home of your child

We at JIS believe in celebrating childhood with its spontaneity and love as you do for your child. A Second home of your child where s/he learns the external world through our own teaching methodology. We discovered this methodology after intense research based on children's response to their environment.

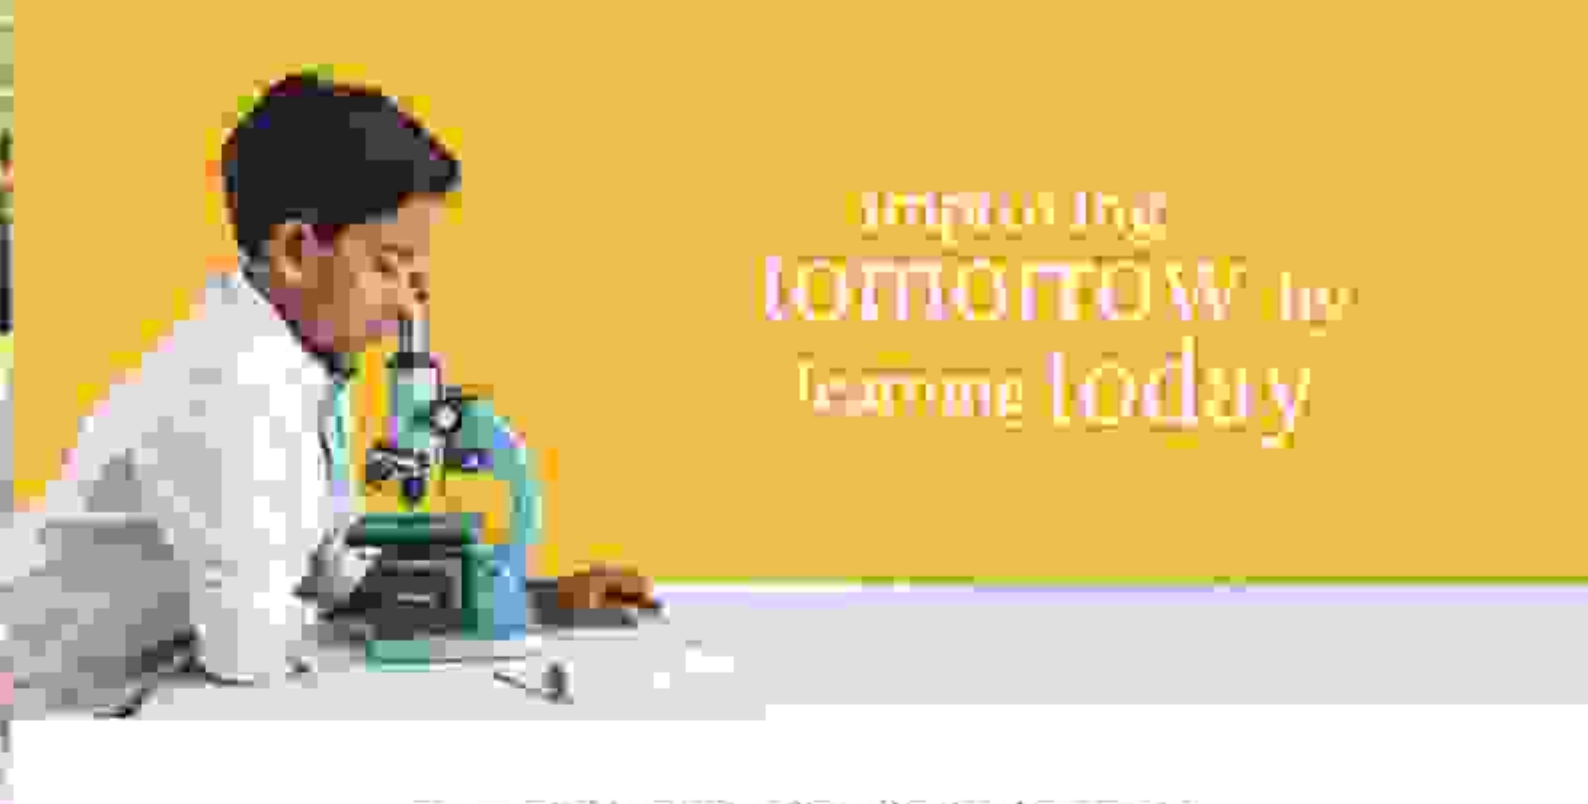

Our teaching methodology respects the 4Cs in a child:

Children spend 40% of their time in school. It is the most important time in their lives when they learn to become responsible citizens.

Our methodology is based on the 4Cs: Curiosity, Confidence, Commitment, and Creativity. These are the four pillars of our teaching methodology. We believe that a child's learning should be a joyful experience. Our methodology is designed to make learning a fun and engaging process. We focus on the child's individual needs and interests. Our methodology is based on the 4Cs: Curiosity, Confidence, Commitment, and Creativity. These are the four pillars of our teaching methodology. We believe that a child's learning should be a joyful experience. Our methodology is designed to make learning a fun and engaging process. We focus on the child's individual needs and interests.

DIFFERENTIATING INSTRUCTION STRATEGY

Differentiating instruction is a teaching strategy that recognizes that students have different learning needs and styles. It involves tailoring instruction to meet the individual needs of each student. This can be done in a variety of ways, such as providing different levels of challenge, using different teaching methods, and providing additional support for students who need it.

There are many benefits to differentiating instruction. It can help to improve student learning outcomes, increase student engagement, and reduce the risk of students falling behind.

- There are many ways to differentiate instruction. Some of the most common ways are:
- 1. Content differentiation: Providing different levels of challenge or depth of content.
 - 2. Process differentiation: Using different teaching methods or activities.
 - 3. Product differentiation: Allowing students to demonstrate their learning in different ways.
 - 4. Environment differentiation: Creating a learning environment that is supportive and engaging for all students.

It is important to note that differentiating instruction is not about creating separate tracks for different students. It is about meeting the needs of all students within a single classroom. This can be done by using a variety of strategies and techniques.

- 1. Use a variety of teaching methods: Use direct instruction, inquiry-based learning, and collaborative learning.
- 2. Provide different levels of challenge: Use differentiated assignments and projects.
- 3. Use different teaching materials: Use textbooks, online resources, and real-world examples.
- 4. Provide additional support: Use small group instruction, peer tutoring, and individualized feedback.

LANGUAGE DEVELOPMENT

It is essential that children understand communication not only just through verbal communication, but also by using non-verbal and visual communication.

COGNITIVE DEVELOPMENT

It is crucial that a child's learning, understanding, problem-solving, reasoning and memory skills are engaged through various activities.

FINE MOTOR DEVELOPMENT

At a very early age, the child should be able to use his or her hands not only to eat and dress, but also to draw, play, write, be creative, inventive in the process and develop aesthetic skills.

PHYSICAL DEVELOPMENT

Gross motor skills help in developing simple skills like how to sit, stand, walk and run, keep balance and change position.

PERSONAL AWARENESS

Habits are formed at this stage and it is imperative that children learn not only about themselves but also develop independence, safety and hygiene.

SOCIO-EMOTIONAL DEVELOPMENT

It is very important that children learn to build positive relationship with their family, friends and teachers.

Skill Based
Learning

TALENT DEVELOPMENT

It is essential to identify children's talents and activities in the school that will be beneficial to the child's personal growth and development. It is a gradual process from Kindergarten to middle school. We identify talents through observation and encourage participation if the child will express themselves and demonstrate their talents.

We identify every student's specific strengths and focus our attention on the child's talents and encourage them to develop their talents.

Academic or Intellectual Talents

Development of language skills such as oral and written, reading, writing, drawing, and mathematics, science, social studies, music, and physical education.

Creative Talents

Developing skills such as drawing, painting, singing, dancing, and acting.

Physical Talents

Development of physical activities such as sports, games, and physical education.

Social Talents

Focus on the child's ability to interact with others, make friends, and work together. Encourage the child to participate in group activities, projects, and social events.

Encourage the child to express their thoughts and feelings, and to be assertive in their interactions with others.

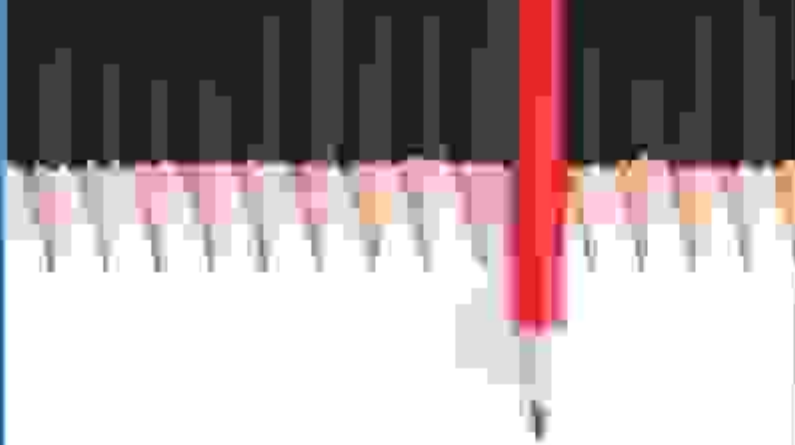

TEACHER EMPOWERMENT

Teachers at Jaipur Public School are empowered by the School to participate, develop and improve on their teaching practices. The Teacher Empowerment Program empowers teachers with the best pedagogical practices available in the classroom. It also helps them acquire knowledge, strategies and skills to meet the needs of the students in their classrooms.
