INTRODUCTION

Green Valley Secondary School, Jaipur is an English Medium Co-Educational School under the management of **The Green Valley Education Society, Jaipur.**

OBJECTIVES

Children are the heritage of God. Thus it becomes our moral duty to bring them up in a way which can mould their future in their own benefit and in the benefit of mankind.

The School seeks to provide not just academic excellence for which it is known but also aims at grooming young minds through the medium of English, in building a confident, integrated and balanced personality. It seeks to develop scientific and rational thinking coupled with a modern outlook while retaining the essence of our age-old culture, traditions and values ingrained in our society.

The School, therefore, aims at the integral and total formation of the young. To accomplish this, special efforts are made to help the students to become mature and spiritually oriented persons of character. They are to be persons with a love for learning, with habits of critical thought and accurate expression and with the strength of character and moral values needed for a life that is socially meaningful and productive. Hence students are encouraged continually to strive for excellence in every field, to be clear and firm on principles and courageous in action, to be unselfish in the service of their fellow-men and to become agents of social change in the country.
