Revathi Central School

Our School aims to lay a strong foundation for children to flourish in School life through Creativity, Imagination, Curiosity, Eagerness and Love for Learning.

The formative years of a child are the most crucial in learning and development. We ensure that children build a strong foundation providing them with a rich learning experience, by paying close attention to their growing up needs.

From the Principal Desk

Greetings from Revathi Central School !!! The Best Possible Start!!

"Education is the most powerful weapon
which you can use to change the world."
-Nelson Mandela

From your child's very first day
with us to the day they leave,
they will be on a journey of
discovery,

Exploration and Inquiry, a
journey which equips them
with the skills and
knowledge essential for living
in the 21st century. We not only
develop skills and knowledge in
children but also engage and encourage
them to apply in real world,
so they can be ready for the challenges.

Preschool and Kindergarten:

Talents are nurtured through our varied and exciting Curriculum, Innovative and Contemporary learning practices to stay ahead of its peers. Integration of Yoga, Music and Fitness programs alongside Phonics, Math and Science will offer the child a superlative learning experience coupled with a nurturing and safe pre-school environment. These programs focus on enhancing the MIND, BODY and SOUL of a child thereby transforming them into evolved and balanced human beings.

A Love for Learning!!!!

Primary:

Our learning system makes learning a joyous, engaging, experiential, meaningful and creative process for all children, and learning is four folded process. It is never ending, upward, spiral, a continuous that may begin at any point but one that never ends. Students will acquire and apply a set of Trans-Disciplinary Skills: Social Skills, Communication skills, Self-Management skills, Thinking Skills, Research Skills. These skills are relevant to all learning, Formal and Informal in the school, events experienced beyond its boundaries.

**Happy Learners
lead to
Happy Parents !!!**

**We feel that the school does everything
they need to benefit our child!!!**

Parent of A.Mithra, Euro Senior .

**Creating a Stimulating and
Happy School Environment!!!**

Parent of Shanvi Neha, Nursery.

**Themes for children are well planned
Exciting and Imaginative!!!**

Parent of Aswath, Grade 1.

**Excellent School. Management is focusing on children
growth in multiple directions like sports, health, wisdom,
interpersonal development and of course curriculum.**

Parent of R.Naren Aravinth, Grade 5.

My child enjoys coming to school. Learning new topics and going on exciting trips. My experience about this school is pretty good and they are good at nurturing and developing the child's academic skills as well as Social interaction and productive play. Overall my child progressed massively this year.

Parent of Mithul Kiruthik
