# LEARN AND SHINE

## WE ARE...

Little Angels High School is a name that inspires trust in parents, academicians, students and the residents of the great temple town of Tirupati. With a strong legacy in education that spans over 3 decades, we have been growing from strength to strength in imparting quality education and development of our students during the important, formative years of their life. Our success is widely due to the passion of our teaching staff, who are selected through a rigorous recruitment process.

The hallmark of education at Little Angels High School is the balance maintained between academics and extracurricular activities. Learning is not only based on theory and text books, but also on application of what is learnt in the classroom. Besides Academics, sports, music and drama also form a part of the curriculum.

Founded by Visionaries and eminent educationists **Mr. K. Rajagopal Reddy and Mrs. Rama Devi** and now the school is led by Director **Mrs. Swetha Reddy**, Little Angels High School today has 2 campuses across Tirupati with alumni base of 10000 students.

Your Child's future is rest assured at Little Angels High School.

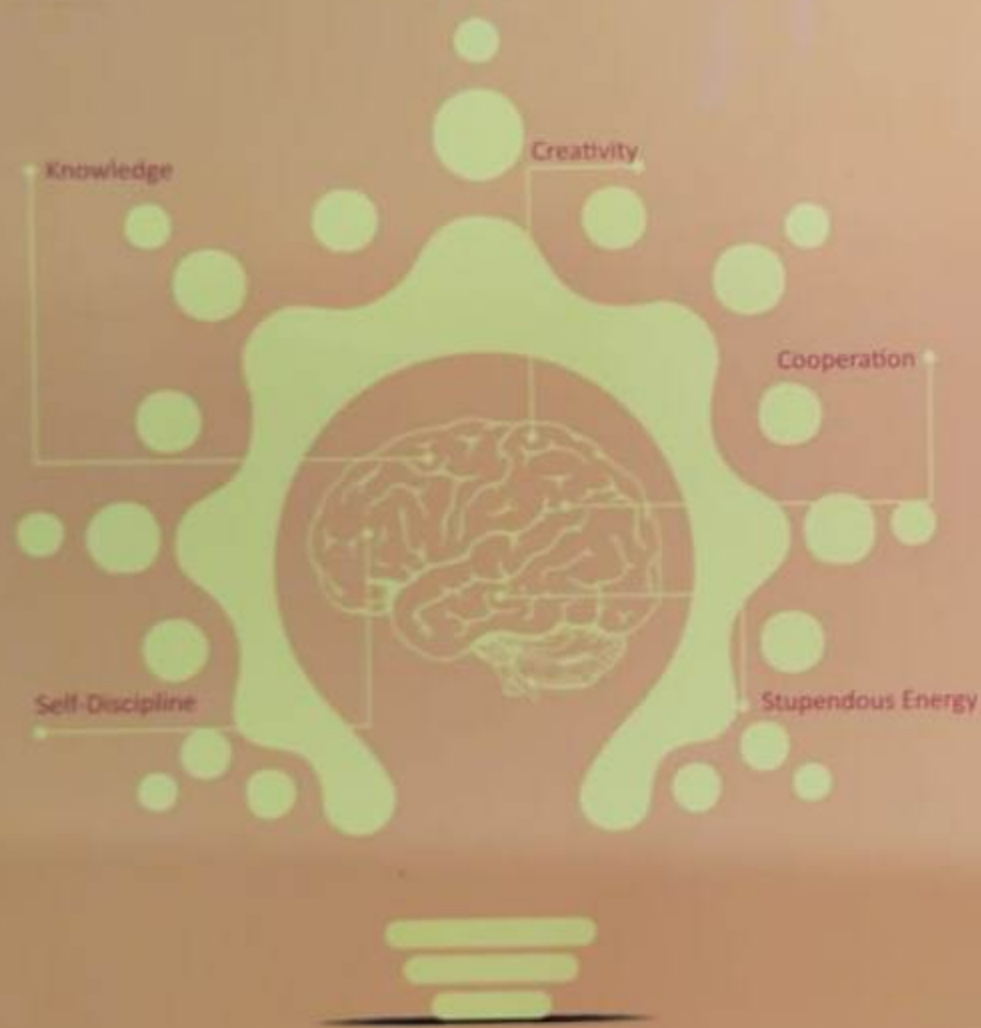

## HOW WE GO ABOUT IT

Our teaching staff goes through a rigorous selection procedure where character, talent and academic ability is put to test. Our pedagogy focuses on engaging the student in the concepts discussed in the class. This is done using the following methods:

1. **Play - Way:** Making learning fun, this ensures that the student retains and learns faster.
2. **Interactive:** Two-way communication - Teacher to student and student to teacher. Students are encouraged to participate and interact with each other.
3. **Innovative:** Constant effort to present theory and concepts through new and creative methods so that student interest is retained.

A conscious effort is made by the teaching staff to develop the intellectual faculties of the students, create a wider awareness of the world and make way for development of the aesthetic, moral and emotional dimensions. Our teachers explore the innermost recesses of their own mind and elevate the child's personality by shaping it to become an open, right and above all a strong one.

## WHAT DRIVES US ...

The foundation of education at Little Angels is based on 5 principles

**Knowledge:**

Knowledge is not limited to theory but also practical application.

**Creativity:**

Groom young minds to think differently and out of the box.

**Self-Discipline:**

Besides academics, it's important that students build good character. Good character is essential for success; Self discipline is required to build character.

**Cooperation:**

Develop the spirit of working together to achieve goals.

**Stupendous Energy:**

Inspire, drive and channelize the young energy towards achievements.

Values @ LAHS

Commitment, Respect, Integrity

### Our Vision

#### TO GROOM YOUNG MINDS

Who will:

- Live for a purpose
- Learn to apply
- Lead with determination
- Leave a timeless legacy

## LEARNING BOOSTERS

Study Tours
